Placed in Michelin

I am grateful to the institute for shaping my career in the best possible way. Throughout my time at the institute, I was encouraged to get involved in extracurricular activities and lead the institute's SAE team. This exposure helped me build a very diverse skillset of technical and non-technical skills such as CAD, CAE, FMEA, Advanced Manufacturing and Prototyping methods, Financial Management, Project Planning, Leadership etc. All the faculty members always showed support in every possible way to enhance our learning and prepared as better engineers for entering the industry.
